

Our Company

KJA Consultants Inc. is an engineering consulting firm specializing in vertical transportation systems. The firm is totally independent, having no affiliation with any industry contractor or developer. The firm was founded in 1965 and has offices in Vancouver, Calgary, Edmonton, Toronto, Ottawa, and Montreal.

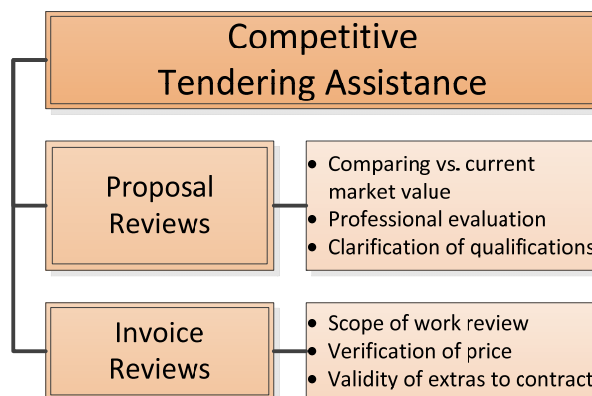

KJA has staff serving as members of the B44 CSA Elevator and Escalator Safety Code Committee and has Certified Elevator Safety Inspectors (National Association of Elevator Safety Authorities).

KJA has designed, specified and inspected elevator systems in commercial, residential, and health care buildings throughout North America and internationally. KJA's area of expertise includes elevators, escalators, moving walkways and conveyors.

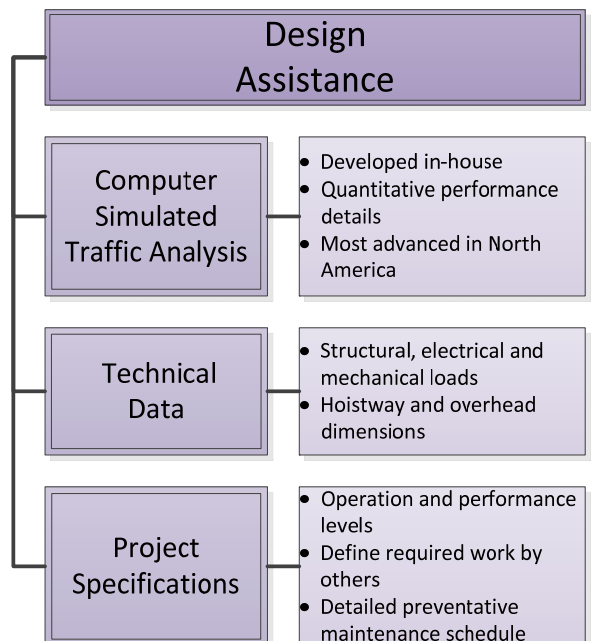

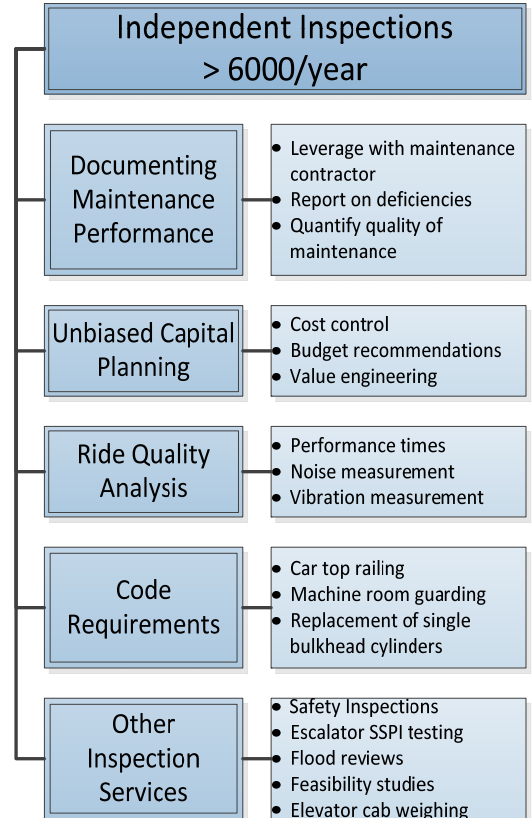

KJA combines extensive experience together with the most modern techniques of computer based simulation, analysis and performance level metering. Expertise in the field of microprocessors allows KJA to properly test and evaluate modern elevator control systems.

KJA has the personnel to deal with the wide variety of issues that arise on different types of projects. The project staff includes mechanical, electrical and structural engineers as well as a licensed mechanic and a computer systems analyst.

The range of services available for new building projects covers the design of elevator/escalator systems (computer simulation with dispatching logic), specifications, coordination of work by other trades, bid review, contract negotiations, interim inspections, progress payment review, drawing review, final acceptance inspections and post-occupancy performance inspections. For modernization projects, similar services geared to the renovation process are provided.

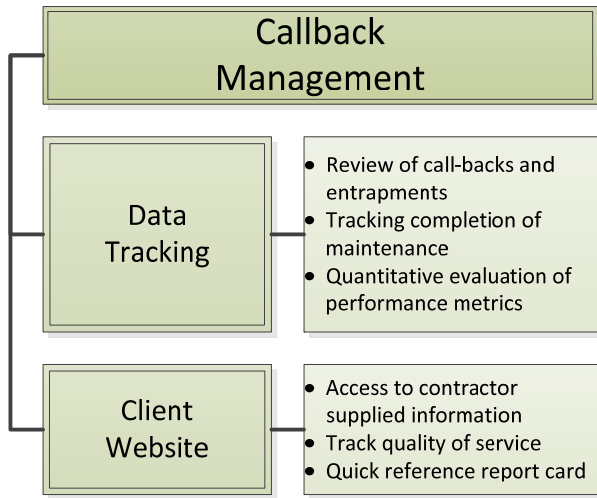

Our Services

Elevator Design. Advice. Solutions.

Ryerson Student Learning Centre, Toronto

- 6 elevators
- 100,000 square feet

Forensic Services and Coroner's Complex, Toronto
